STREET INDEX  
N.B. The Map is divided into quarter mile squares by lines running North & South and East & West. To find a street or public building, note the letter and number against it in Index; then find the corresponding letter and number in margin of Map and follow the squares horizontally & vertically from them. The required name will be found in the square of intersection. Thus McGill St. F. 19, will be found in the square horizontally opposite 'F' and vertically in line with 19.

ST. MAURICE

This historical map of Montreal's Mercier and St. Leonard de Portneuf regions provides a detailed view of the city's layout and industrial activity in the early 20th century. The map is color-coded to distinguish between different land parcels or ownerships. The St. Lawrence River is prominent in the lower right, with several wharves and industrial facilities along its banks. The Canadian Pacific Railway and Canadian National Railways are major transportation networks shown throughout the map. The map also includes a scale bar at the bottom right, ranging from 0 to 5 miles in increments of 500 feet.
